

LiberUp cookie policy

Browser technologies, their purposes and managing choices. The Privacy policy provides related personal-data information.

Version: 2.6-draft-2026-10-20 | Updated: 2026-10-20

Planned effective date: [EFFECTIVE DATE TO BE APPROVED]

DRAFT: Draft for approval. Effective date: [EFFECTIVE DATE TO BE APPROVED]. This version incorporates facts available on 20 October 2026 but requires completion of the identified checks and company approval. It does not amend earlier contracts or activate sales or renewals. Final publication will carry its actual effective date and a separate version identifier.

1. Responsibility and scope

LIBERUP SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ, UL. OZORKOWSKA 13A , 95-100 ZGIERZ, is responsible for technologies on liberup.pl. Contact: contact@liberup.pl. Cookies are information stored in the browser; this policy also covers similar device storage and access.

Essential technologies support a user-requested function or transmission. Optional analytics and marketing require separate assessment and prior consent where required. Merely continuing to browse is not consent.

2. Current inventory

`auth_token` — LiberUp first-party cookie for sign-in and access control, up to 7 days; `HttpOnly`, `SameSite=Lax`, `Path=/`, `Secure` on HTTPS. Deleting it signs the user out or prevents the session from persisting.

`mfa_challenge` — LiberUp first-party cookie linking a temporary additional login verification, up to 10 minutes; `HttpOnly`, `SameSite=Strict`, `Path=/`, `Secure` on HTTPS. It appears only in the relevant MFA flow; deletion requires verification to restart.

`liberup_locale` — LiberUp first-party cookie for the chosen PL/EN language, up to 365 days; `HttpOnly`, `SameSite=Lax`, `Path=/`, `Secure` on HTTPS. Selecting or saving a language may renew its storage period.

`liberup_cookie_consent` — LiberUp first-party cookie recording optional-category choices and choice version, up to 180 days; `SameSite=Lax`, `Path=/`, `Secure` on HTTPS. Interface code reads it to manage consent settings. It is not used for advertising tracking in this context.

The period is the maximum browser lifetime for that record; sign-out, reconfiguration, user deletion or server invalidation may end its operation earlier. Not every cookie appears on every visit.

3. Optional technologies and links

Google Analytics, Google Ads and AdSense are not currently enabled. Selecting a consent category does not itself mean a tool is active. Enabling a new tool requires disclosure of its name, provider, purpose, duration, recipients and transfers, and renewed consent where the scope has changed.

Facebook, X, YouTube and Instagram icons are ordinary links without pixels, tracking plugins or embedded videos. Launch payment is planned through redirection to Stripe; mentioning `Przelewy24` and `Paynow` here does not activate them. External domains follow their operators' documents and settings. LiberUp does not set consent on those sites for the user; LiberUp cookie consent does not replace consent required by an external service.

4. Choice and withdrawal

Cookie settings allow optional categories to be rejected, analytics and marketing to be selected separately, or all optional categories to be accepted. Categories are not preselected. Closing the panel or giving no decision does not enable technologies requiring consent.

Change choices through the website cookie-settings control. Withdrawal applies prospectively without affecting earlier lawful processing. Deleting the choice cookie may display the panel again. Browsers also allow blocking and deletion; blocking essential cookies may disrupt login or language choice, while refusing optional ones does not block purchased services.

5. Grounds and updates

Electronic Communications Law Article 399 governs storage and access to device information, including exceptions for necessary operations. Further processing of personal data also follows GDPR. The Privacy policy identifies purposes and grounds of server-side processing.

The inventory must be updated alongside technology deployment. Current and previous versions appear in the Legal centre. Editing this policy alone does not authorise new tracking.
